DETAILED ACTION

Response to Amendment

1. Applicant's amendment has been received and entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1, 2, 4-9, and 11-21 remain; claims 3 and 10 are canceled.

Claim Rejections - 35 USC § 103

4. Claims 1, 2, 4, 5, 7-9, 11-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hiruta in view of Kajiwaka '268, as explained in the previous Office action.
5. Claims 6 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hiruta and Kajiwaka '268, as applied above, further in view of Kajiwaka '354, as explained in the previous Office action.

Response to Arguments

6. Applicant's arguments filed 9/11/03 have been fully considered but they are not persuasive.
7. Applicant argues that Kajiwaka '268 teaches that the work rolls are shifted during rolling, even when the strip width is not varied. Applicant has not, however, pointed to any language or drawing in the Kajiwaka '268 reference to support this assertion. As explained in the previous Office action, Kajiwaka '268 clearly teaches that the work rolls are fixed when a strip of constant width is being rolled. This teaching is inherent in Figs. 3i-3iv and their description in the specification. Additionally, it appears that this reference teaches away from cyclically shifting the work rolls during rolling. As Figures 3i-3iv make clear, the worn portion of the working

rolls is exactly the same dimension (i.e. same width) as the rolled strip. If the work rolls were cyclically shifted during rolling of a strip of constant width, as applicant suggests, the worn portion of the roll would seemingly be a different dimension than the strip.

Conclusion

8. This is an RCE of applicant's earlier Application No. 09/942039. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Goetz whose telephone number is 703-308-1411. The examiner can normally be reached on Mon, Tues, Thurs, Fri 7:00am-5:30pm.
